

RMD LF-60

LASER POINTER FOR DEMANDING ENVIRONMENT

BR20200422-12

The **RMD LF-60** is a laser pointer for working vehicles. The laser pointer makes it easier for the driver to control the vehicle's driving route. The **RMD LF-60** can be used, for example, in road marking trucks, where it is important to drive the machine strictly on the desired route.

CAUTION

Class 3B Laser device. Please read the safety instructions carefully before using the appliance.

- ✓ The light spot of the laser is bright enough even in bright sunlight
- ✓ Rugged and waterproof housing
- ✓ It is pleasant to use the device from dark to bright conditions, because the power of the laser is adjustable.
- ✓ Easy to be fitted and adjusted to the right position.
- ✓ One control unit can individually control two RMD LF-60 devices

Technical specifications:

Ingress Protection	IP 68
Weight	<2,5 kg
Dimensions, cm (width x height x deep)	10 x 15 x 16
Operating voltage and power consumption	10-30 Vdc, max 10 W
Laser device classification	IEC/EN 60825-1:2014
Power of laser light	Max 100 mW
Laser beam classification and wavelength	520 nm, Class 3B green laser
Laser light spot size at 5 meter's distance	about 25 mm x 70 mm
